

Celebrating and Connecting

The creak of Red River carts, the pounding of metal on metal, and the smell of freshly baked bannock greet you at North America's only restored stone fort from the fur trade era. Buildings and walls that have stood on the bank of the Red River for over 180 years tell inspiring tales of innovation, discovery and struggle.

Let our guides familiarize you with the Fort. Enjoy specialized presentations focusing on diverse topics such as archaeology, clothing or beading. Catch an orientation tour providing you with a general overview of the site's history, our most popular program.

The 2011 visitor season is extra special as it marks the centennial of Parks Canada. Special events and programming will highlight the entire year.
