Who is on the committee?
The committee is made up of five members of the public living in Jasper National Park who are not employees of the Municipality or Parks Canada. One member of the committee serves as the chair.

A separate terms of reference is available for the committee.

Public Hearing procedures
The agenda for all public hearings will be advertised a minimum of two weeks in advance. Lessees within 45 m of the property in question will be notified of the hearing by regular mail.

Only issues placed on the agenda by Parks Canada will be considered at the hearing. The chair will introduce agenda items and Parks Canada staff will provide background information.

The chair will invite scheduled speakers, who have previously identified their support or opposition to the proposal, to present their information. Letters, either in support or opposition, will then be read out. Anonymous submissions are not accepted. Presentations are limited to five minutes.

After hearing all the presentations, the committee will deliberate in camera. Within seven days of the hearing, the committee will submit written recommendations to the Superintendent, who has the final say on all land use planning and development issues.

The applicant will be notified by Parks Canada of the decision within 15 working days of receiving the written committee recommendation. As well, the notice of decision will be posted in a public area.

Restrictions on public presentations
Presentations to the committee are limited to planning and development related matters. The personal character of the applicant, or commercial competition, are not valid arguments. The committee evaluates each application on its own merit.

Appeals

A decision on a development permit may be appealed to the committee by either the applicant or anybody affected by the decision. An appellant must demonstrate that either the relevant development requirements were misinterpreted, that not all the relevant information was before the committee when they formulated their decision or that the development review process was not followed.

An appeal of a development permit must be made in writing to the Development Office, and include the following information:

- identification of the property, the application, and the decision being disputed,
- name and mailing address of the appellant,
- specific reasons for the appeal.

After the appeal is submitted, the appellant and all relevant parties will be notified by regular mail of the time and location of the hearing to review their appeal. All materials submitted on an appeal form part of the public record.

Following a committee hearing, there is no further appeal mechanism except to seek legal recourse.
