Welcome to Lake Louise. Take a trail less travelled and explore our beautiful natural environment by bicycle.

Biking in the Lake Louise area offers both experienced and novice cyclists unprecedented views of pristine landscapes, including glaciers, mountains, lakes and more. From the doorsteps of your accommodations or camping site, you are minutes away from over 100 kilometres of bike trails. Riders may select routes options to enjoy remote backcountry mountain biking trails. While other national parks offer scenic beauty of the natural landscapes, Lake Louise area transports riders to a unique outdoor experience while keeping the park's natural environment by bicycle.

In the Lake Louise area, human development and activity is highly used by people. When you venture on the trails, you influence how wildlife uses habitat and how it moves through the landscape. With thoughtful consideration of the natural environment, you help conserve it.
