

## Map of Geocaches along the Soren Sorensen 5km Loop

## HOOKED ON GEOCACHING?

If you have a GPS unit or a smart phone you can geocache anytime and almost anywhere. There are over one million geocaches worldwide!

1. Go to **geocaching.com**
2. Sign up for an account (it's free!)
3. If you are using a smartphone, download a geocaching app
4. Download some geocaches to your GPS or smartphone
5. Get outside and start hunting!

P.O. Box 350  
Revelstoke, B.C.  
Canada  
V0E 2S0

### Objective:

Find 5 or more geocaches along the Soren Sorensen 5km loop and collect a limited edition Mount Revelstoke National Park geocoin.

### Instructions:

1. Download the geocaches listed in this booklet onto your GPS unit or smartphone – go to [geocaching.com](http://geocaching.com) or enter the coordinates manually.
2. Pick one of the geocaches listed in this booklet and go and find it!
3. When you find a geocache: sign the logbook, answer the skill-testing question and hole-punch this booklet.
4. Once you have found 5 (or more) geocaches, bring this booklet into the Revelstoke Parks Office or mail it in to receive your geocoin.

**NELS NELSEN:** N 51° 00.478 W 118° 11.621 Located at the base of the Nels Nelson historic ski jump.

**Hint:** Under the kiosk on the slope side under the word “Canada.”

**Question:** How far did Nels Nelsen jump when he set his last world record in 1925?

**Answer:** \_\_\_\_\_

**BIRCH:** N 51° 00.599 W 118° 11.782 Along the upper loop of the trail.

**Hint:** Behind and under.

**Question:** What did First Nations peoples make from birch bark?

**Answer:** \_\_\_\_\_

**BOULDER PASS:** N 51° 00.726 W 118° 11.910 Along the upper part of the trail, where it passes between two large boulders.

**Hint:** Behind the uphill rock.

**Question:** How did these two boulders get here?

**Answer:** \_\_\_\_\_

**CLUMP:** N 51° 00.843 W 118° 12.006 This geocache is located on the upper part of the loop. Clumps of trees are common along the trail. This geocache is placed by a clump made up of four different tree species.

**Hint:** To log this, look under the log.

**Question:** How many tree species have grown in this area?

**Answer:** \_\_\_\_\_

Punch here:

Nels Nelsen

Birch

Boulder Pass

Clump

**CEDAR:** N 51° 01.076 W 118° 12.031 The wet forests of the Selkirk Mountains have a mix of trees, but are predominantly cedar and hemlock. This area experienced a large fire around 1895 which means there are very few old growth trees nearby.

**Hint:** Behind a cedar that is close to the trail and next to a stump.

**Question:** What is one thing that First Nations peoples used cedar to make?

**Answer:** \_\_\_\_\_

**CONES:** N 51° 01.248 W 118° 12.160

A geocache near the north end of the 5km loop.

**Hint:** Behind the rock.

**Question:** Western white pine leaves grow in bunches of \_\_\_\_\_?

**Answer:** \_\_\_\_\_

**STUMP:** N 51° 01.134 W 118° 12.218

A geocache along the lower part of the 5km loop.

**Hint:** Stump.

**Question:** Name a lichen that grows on the stump.

**Answer:** \_\_\_\_\_

**ACROSS MOSS:** N 51° 00.970 W 118° 12.095 A geocache along the lower part of the 5km loop.

**Hint:** To log this, look under the log

**Question:** Name a plant that grows nearby.

**Answer:** \_\_\_\_\_

Cedar

Cones

Stump

Across Moss
