**Falling Water From the Glacier**

A torrent of plunging water not far from the highway, Athabasca Falls is one of the most spectacular waterfalls in the world. Rock climbers scramble to the top of the falls and dangle 93 meters above the river. The Athabasca Glacier has melted and the middle toe is slowly disappearing. A century ago when this was named, three “toes” of the icefield were visible at the mouth of the valley. Athabasca Falls is a must-see.

**Peyto Lake**

A short walk from the parking area leads to a view of the lake. In July, it is possible to cross to the other side of Peyto Lake.

**Bow Summit and Peyto Lake**

A short walk from the parking area leads to a view of the lake. In July, it is possible to cross to the other side of Peyto Lake.

**Bridal Veil Falls**

A short walk from the parking area leads to a view of the falls. In July, it is possible to cross to the other side of Peyto Lake.
